List No. 11

Growth Through Agricultural Progress

LIST of AVAILABLE PUBLICATIONS

of the United States
Department of
Agriculture

Compiled by
Eleanor W. Clay and Ella J. Green

Publications Division
Office of Information
U.S. DEPARTMENT OF AGRICULTURE

List No. 11

Issued January 1962

Current as of September 1961

HOW TO USE THIS LIST

This list gives the publications of the U.S. Department of Agriculture currently available as of September 1961. Department publications are intended primarily for farmers, homemakers, suburbanites, research workers, teachers, and others who are interested in agriculture or related subjects.

SECTION I tells how to order free publications from the Department and publications that are for sale from the Government Printing Office.

SECTION II gives titles of publications, classified by subject matter.

SECTION III is an alphabetical listing of subjects and a ready reference to titles.

For additional information on agricultural subjects including programs such as Rural Areas Development and Great Plains, write to the Office of Information, U.S. Department of Agriculture, Washington 25, D.C., or see the agricultural agent in your county. For published reports of State agricultural experiment stations, write directly to the station concerned. Addresses are available from the Office of Information on request.

UNITED STATES DEPARTMENT OF AGRICULTURE

SECTION I

GENERAL INFORMATION

HOW TO OBTAIN FREE PUBLICATIONS

Publications are free, as long as the supply lasts, unless a price is given. On general requests not more than one copy each of 10 publications is allowed. Justification is required if more are requested. Use the following instructions as a guide.

Educational Institutions

Libraries and instructors may obtain as many as one each of 100 free publications. Justification is required if more are ordered. The Department is unable to supply them in quantity for individual textbook use.

Extension Workers

Publications can be had in quantities if application has cleared through the State extension publications-distribution officer. His office is usually located at the State college. In many cases the distribution officer is the State extension director or State extension editor. Clearance is not required if 50 or fewer publications are ordered. Send letters not requiring clearance to the Distribution Section, Division of Management Operations, Federal Extension Service, U.S. Department of Agriculture, Washington 25, D.C.

In requesting popular publications (Farmers' Bulletins, Leaflets, and Home and Garden Bulletins) county extension agents are asked to use their copy of the Annual Inventory of USDA Popular Publications and the monthly supplements in the Extension Service Review.

Foreign Governments, Institutions, Residents

No publications issued by the Department of Agriculture will be sent regularly to any foreign government, organization or private agency unless exchange arrangements have been made by the Director of the Library of the Department of Agriculture, who will be glad to arrange for such exchange of publications. All inquiries concerning exchange should be addressed to the Library, U.S. Department of Agriculture, Washington 25, D.C. Residents or institutions may purchase copies of any listed publication from the Superintendent of Documents in accordance with the instructions under **How to Order Publications Marked With an Asterisk**. Prices not given will be quoted upon request.

Government Agencies and Cooperators (Federal, State, county, and local)

Library and office copies of free publications may be obtained when needed. Consideration will also be given to quantity requests if effective distribution can be assured.

Libraries (State or Public)

One copy each of any free publication needed.

Organizations (Commercial)

One copy each of free publications will be furnished to libraries on request. Not more than one copy each of 10 publications is allowed on other requests. If more are desired it is requested that they be purchased. Where prices are not given, they will be quoted on request from the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

Organizations (nonprofit)

Library or office copies of free publications will be furnished on request. Consideration will also be given to quantity requests if effective distribution can be assured.

Press

Library and review copies of free publications will be furnished on request. Justification is required if more than 50 are ordered. Publications cannot be furnished for redistribution. Before publicizing a publication please obtain permission, as otherwise the supply on hand might not be sufficient to meet the demand.

Public

Not more than one each of 10 publications are allowed unless justification is given.

Radio

Library and review copies of free publications will be furnished on request. Justification is required if more than 50 are ordered. Publications cannot be furnished for redistribution. Before publicizing a publication please obtain permission, as otherwise the supply on hand might not be sufficient to meet the demand.

Teachers

Libraries and instructors may obtain as many as one each of 100 free publications. Justification is required if more are ordered. The Department is unable to supply them in quantity for individual textbook use.

How to Order

After consulting the above guide write your name and address plainly. Send orders for free publications to the Publications Division, Office of Information, U.S. Department of Agriculture, Washington 25, D.C. Give title of bulletin and order number. To hasten action on your request, group the publications by the order-number letter and list numerically. See sample order below.

Sample Order: Blueberry growing.	F 1951
Growing slash pine.	F 2103
Chiggers: How to fight them.	L 403
What is a conservation ranch plan.	L 460
Meat for thrifty meals.	G 27
Hand sprayers and dusters.	G 63
Conservation irrigation.	AB 8
Farm gates, plan No. 5505.	M 764
U.S. grades for beef.	MB 15
Los Angeles egg market.	MRR 440

HOW TO ORDER PUBLICATIONS FOR SALE ONLY

Send order together with remittance for publications marked with an asterisk (*) to the Superintendent of Documents, Government Printing Office, Washington 25, D.C. Remittances can be made by coupons which are sold by the Superintendent of Documents in the denomination of 5¢, postal money order, express order, or personal check. Currency may be sent at sender's risk.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$25.00 or more are accepted whereby orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. Sufficient deposit to take care of publications ordered must be on hand at all times.

No additional amount for postage is required for shipment within the United States, its territories, Canada, Mexico, and all Central and South American countries except as hereafter noted. For shipment to all other foreign countries, including Argentina, Brazil, British, French, and Dutch Guiana, and British Honduras, it is necessary to include an additional one-fourth of the total cost of publications ordered to cover foreign postage. Remittances from foreign countries should be by international money order payable to the Superintendent of Documents or draft on an American bank. Foreign money and postage stamps are not acceptable. **Exception:** When

subscribing for a periodical do not send postage, as this is provided for in the foreign subscription price.

A discount of 25 percent is allowed to authorized book dealers and to purchasers of 100 or more copies of one publication on condition that the purchasers will adhere to the public sale price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

PUBLICATIONS NO LONGER AVAILABLE

Publications of the Department no longer in print may be consulted in public or university libraries maintaining government publications. Many of these libraries carry fairly complete files of Department of Agriculture publications. If the one nearest you is at any distance, time might be saved if you communicate with the library concerning the publications you want to consult before making a trip. In addition to unavailable publications, the ones listed herein may also be consulted.

MICROFILMS AND PHOTOPRINTS

Microfilm and photoprint copies of any Department publication may be bought from the U.S. Department of Agriculture Library, Washington 25, D.C. All charges, except for Federal agencies, are payable in advance. Payments should be made by check or money order payable to the "Library, U.S. Department of Agriculture." Currency is sent at the sender's risk. Payment for orders originating outside of the United States should be made by international money order or by draft on a bank in the United States. U.S. Department of Agriculture Library coupons (obtainable from the Library at \$1.00 each) and UNESCO book coupons are acceptable.

Microfilms: \$1.00 for each 30 pages or fraction thereof from a single article or book.

Photoprints: \$1.00 for each 4 pages or fraction thereof from a single article or book.

DESCRIPTIONS OF SERIES

AGRICULTURE HANDBOOKS

This series includes information for ready reference, such as manuals, guidebooks, specifications, glossaries, and lists of plants or animals, for professional and technical workers.

AGRICULTURE INFORMATION BULLETINS

This series includes subject matter of interest to people and groups throughout the American public—urban as well as rural.

FARMERS' BULLETINS

Information on practical methods of applying the results of scientific research to farming is given in simple language in this series.

AGRICULTURAL ECONOMIC REPORTS

Semipopular or semitechnical reports on production, marketing, and use of agricultural products for professional and technical workers.

FOREIGN AGRICULTURAL ECONOMIC REPORTS

Semipopular or semitechnical reports with emphasis on keeping the nation's agricultural interests informed of current developments abroad in the supply, demand, and consumption of agricultural products.

FOREST RESOURCE REPORTS

This series presents economic information on forest resources.

HOME AND GARDEN BULLETINS

This series presents information on home and garden subjects for use by town and city as well as farm residents.

HOME ECONOMICS RESEARCH REPORTS

Technical or semitechnical reports of home economics research for professional and technical workers in home economics and related fields.

LEAFLETS

Leaflets carry popular material of the same general character as the Farmers' Bulletin series in a briefer form.

MARKETING BULLETINS

Popular presentations of information on agricultural marketing for the general public.

MARKETING RESEARCH REPORTS

In this series the results of marketing research are presented in semitechnical or semipopular style.

MISCELLANEOUS PUBLICATIONS

This series includes both technical and nontechnical publications that do not conform to the size or type of material specified for the other series.

PRODUCTION RESEARCH REPORTS

Semitechnical or semipopular reports of production research, with emphasis on the application of the information in the production of farm products.

PROGRAM AIDS

This series presents information on current farm programs for people affected by the programs.

SOIL SURVEY REPORTS

Soil Surveys present a soil map of a county or area and a report that includes soil descriptions, land-capability groupings, productivity estimates, management suggestions; a technical discussion of soil morphology, relation of soils to their environment, principles of their classification; and a general description of the climate, agriculture, markets, and other features significant to soil problems. **Requests for a list of soil survey reports available in your State or inquiries regarding these reports should be addressed to the Soil Conservation Service, United States Department of Agriculture, Washington 25, D.C.**

STATISTICAL BULLETINS

These publications consist mainly of tables of statistics on one or more closely related agricultural commodities. They may include statistics on production, movement from the farm, receipts at principal markets, reshipments, farm and market prices, exports and imports, and foreign production and prices. They are of particular interest to persons actually engaged in marketing, or any business affected by agricultural production and marketing.

TECHNICAL BULLETINS

Technical Bulletins present results of research work carried on by the Department of Agriculture and its cooperators. They are written in technical language and are intended chiefly for distribution to scientists and specialists in the fields studied. Usually a comparatively small edition is printed which limits the number of copies that are available for free distribution.

UTILIZATION RESEARCH REPORTS

Semitechnical or semipopular reports, with emphasis on the application of the information in the utilization of farm products.

YEARBOOK OF AGRICULTURE

An annual publication devoted to articles on agricultural problems, new developments in agriculture, and research findings.

AGRICULTURAL STATISTICS

The annual statistical compendium issued by the Department covering virtually all phases of agriculture.

OTHER SERIES

Series other than above have been either discontinued or are issued by agencies of the Department to meet their individual needs. For descriptions of periodicals, see pages 81-86.

PERIODICALS

AGRICULTURAL ECONOMICS RESEARCH

Content.—This quarterly, published by the Economic Research Service, contains technical articles which deal with methods, results, and findings of research in agricultural economics, statistics, and marketing.

Free distribution is limited chiefly to professional workers in the field of agricultural economics. Apply to Division of Information, Management Operations Staff, Agricultural Economics, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Single copies, 20¢ each; domestic subscription, 75¢ a year. Foreign subscription, \$1.00 a year. When remitting for a subscription to be sent to a foreign country do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

AGRICULTURAL FINANCE REVIEW

Content.—Issued annually by the Economic Research Service; supplement is issued later in the year. Discusses current developments and research findings in the various phases of agricultural finance. In addition, it is a basic source of financial data pertaining to agriculture in the United States. Signed articles by research specialists or officials of operating agencies and brief news items cover important developments in the changing financial situation of agriculture and in the financial institutions that serve agriculture. Research findings and analyses relate to such subjects as sources of capital used in agriculture, farm-mortgage credit, non-real estate credit, financing of specialized activities such as purchase of machinery, storage of commodities, agricultural risk and insurance, farm bankruptcies, farm real estate volume and transfers, taxation of farms and of farmers, and the interrelations of agriculture and public finance at local, State, and national levels. A statistical appendix contains detailed data by States and by geographic divisions. Also included are a list of current research activities in agricultural finance as reported by Federal and State agencies and reviews of pertinent books.

Distribution is intended for use by agricultural groups, government officials, economists, and educators who have need for a ready compilation of material relating to agricultural finance. Apply to Division of Information, Management Operations Staff, Agricultural Economics, U.S. Department of Agriculture, Washington 25, D.C.

AGRICULTURAL MARKETING

Content.—This monthly magazine is designed to disseminate current information about activities in agricultural marketing to publications, organizations, officials, and individuals who are concerned with the marketing of farm products. The publication brings together up-to-date information on marketing programs carried on by Federal, State, municipal, and commercial marketing agencies; reports preliminary findings of marketing research projects; carries summaries of reports issued on completed projects; and reports on activities in agricultural marketing such as the formulation of standards, inspection and grading, market news, administration of regulatory legislation, and the various food distribution programs.

Free distribution.—Limited to trade publications, the press, State marketing officials, government officials, staff members of agricultural colleges, experiment stations, and other institutions, persons engaged in the dissemination of marketing information, and libraries. Write to the Agricultural Marketing Service, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Single copies, 15¢ each; domestic subscription, \$1.50 a year. Foreign subscription, \$2.25 a year. When remitting for a subscription to be sent to a foreign country, do not include postage. Send remittance and request to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

AGRICULTURAL OUTLOOK DIGEST

Content.—Agricultural Outlook Digest is a two-page monthly digest of current indications as to the outlook for farm production, income, farm employment, demand, exports, prices received by farmers, prices paid by farmers, and the outlook for various farm commodities.

Free distribution.—For sample copies or addition to the mailing list, write to the Division of Information, Management Operations Staff, Agricultural Economics, U.S. Department of Agriculture, Washington 25, D.C.

AGRICULTURAL RESEARCH

Content.—This monthly illustrated periodical is designed to report late research findings to those who work directly with farmers, processors, marketing agencies, and the general public.

Free distribution, which is limited, includes extension workers, vocational agriculture teachers, other Federal and State workers, industrial research directors, advisory committees, farm organizations, press and radio, and trade associations. Apply to Agricultural Research Service, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Single copies 15¢ each; domestic subscription, \$1.00 a year. Foreign subscription, \$1.50 a year. When remitting for a subscription to be sent to a foreign country, do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

AGRICULTURAL SITUATION

Content.—This monthly publication contains brief reports of current marketing and economic developments affecting farmers. It is designed for those interested in agriculture from a nontechnical standpoint.

Free distribution is limited to voluntary unpaid crop, livestock, and price reporters, county agents and other local agricultural workers, and to libraries, the press, and Government officials. Apply to Division of Information, Management Operations Staff, Agricultural Economics, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Single copies 5¢ each; domestic subscription, 50¢ a year. Foreign subscription, \$1.00 a year. When remitting for a subscription to be sent to a foreign country do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

AGRICULTURE DECISIONS

Content.—This monthly official publication makes available to the public decisions of the Secretary of Agriculture under regulatory laws administered in the United States Department of Agriculture. The decisions may be described generally as decisions which are made in proceedings of quasi-judicial (as contrasted with quasi-legislative) character, and which, under the applicable statutes can be made only after notice and hearing or opportunity for hearing have been given. Current court decisions involving the regulatory laws administered by the Department are included in this publication. An annual Index-Digest and Subject-Index of both the agriculture decisions and court decisions, lists of decisions reported, table of statutes, orders, etc., cited and construed, and other tables will be found at the end of each December issue.

Free distribution is limited to individuals and collaborators engaged in regulatory work. Apply to the Agricultural Marketing Service, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Price of single copy varies depending on size; domestic subscription, \$4.50 a year. Foreign subscription, \$5.75 a year. When remitting for a subscription to be sent to a foreign country do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

AMS SERIES REPORTS

Content.—Reports on the work and programs of the Agricultural Marketing Service which do not come within the scope of the regular Department publication series or which are preliminary in nature are issued in the AMS series. Announcement of the

issuance of such reports is made in the Checklist of Reports issued by the Agricultural Marketing Service (see next page). As the contents of these reports cover such a wide range of subjects, no mailing list is maintained for the distribution of all reports in this series. For a listing of the titles already issued in the AMS series, write to the Agricultural Marketing Service, U.S. Department of Agriculture, Washington 25, D.C.

BIBLIOGRAPHY OF AGRICULTURE

Content.—This monthly publication indexes the literature on agriculture and the related sciences received by the Department Library from all over the world. About 100,000 items are indexed every year.

Free distribution is limited to Federal, State and other public agencies. Apply to the Library, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Single copies vary in price; domestic subscription, \$10.00 a year. Foreign subscription, \$13.00 a year. When remitting for a subscription to be sent to a foreign country do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

CHECKLIST OF AE REPORTS

Content.—The checklist of reports issued by the Economic Research Service and the Statistical Reporting Service of Agricultural Economics lists AE publications issued during the previous month. Periodicals are not included, except for annual statistical compilations.

Free distribution.—For sample copies or addition to the mailing list, write to Division of Information, Management Operations Staff, Agricultural Economics, U.S. Department of Agriculture, Washington 25, D.C.

CHECKLIST OF AMS REPORTS

Content.—The checklist of reports issued by the Agricultural Marketing Service lists AMS publications issued during the previous month. Periodicals are not included, except for annual statistical compilations.

Free distribution.—For sample copies or addition to the mailing list, write to the Agricultural Marketing Service, U.S. Department of Agriculture, Washington 25, D.C.

EXTENSION SERVICE REVIEW

Content.—The Extension Service Review is a monthly magazine issued by the Federal Extension Service in the interest of workers and cooperators of the Department of Agriculture who are engaged in extension activities. It contains official statements and other information necessary to the performance of their duties.

Free distribution is limited to extension workers. Apply to the Federal Extension Service, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Single copies, 15¢ each; domestic subscription, \$1.50 a year. Foreign subscription, \$2.25 a year. When remitting for a subscription to be sent to a foreign country do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

FIRE CONTROL NOTES

Content.—A quarterly periodical devoted to the technique of fire control. Articles and notes deal with fire research or fire control management: Theory, relationships, prevention, equipment, detection, communication, transportation, cooperation, planning, organization, training, fire fighting, methods of reporting, and statistical systems.

Free distribution is limited to Forest Service employees and cooperators in fire control work. Apply to the Forest Service, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Single copies, 20¢ each; domestic subscription, 75¢ a year. Foreign subscription, \$1.00 a year. When remitting for a subscription to be sent to a foreign country do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

FOREIGN AGRICULTURE CIRCULARS

Content.—Contain current information on foreign production of principal agricultural commodities and market trends and developments. Designed to assist foreign marketing of United States farm products.

Distribution.—Issued at irregular intervals on separate mailing lists for the following groups of commodities:

Coffee	Hops
Citrus Fruits	Livestock and Meat
Cocoa	Nuts
Cotton	Poultry and Eggs
Dairying	Rice
Deciduous Fruit	Seeds, Field and Vegetable
Dried Fruit	Sugar
Dried Pulses	Tea, Spices, and Other Tropical Products
Fats and Oils	Tobacco
Fresh Vegetables	Vegetable Fibers
Grains (Other Than Rice)	Wool

Available free in the United States. Apply to Foreign Agricultural Service, U.S. Department of Agriculture, Washington 25, D.C.

FOREIGN AGRICULTURAL TRADE DIGEST

Content.—A monthly digest issued by the Economic Research Service containing highlights of the current United States export and import situations; also a single sheet, Trade News Roundup, of late news on governmental actions and related events affecting agricultural trade; and summary tables on the latest official export and import trade statistics.

Distribution.—Free in the United States. Apply to Division of Information, Management Operations Staff, Agricultural Economics, U.S. Department of Agriculture, Washington 25, D.C.

FOREIGN AGRICULTURAL TRADE OF THE UNITED STATES—
STATISTICAL REPORT

Content.—Issued monthly by the Economic Research Service, with annual summaries on a fiscal-year and calendar-year basis. The monthly issues contain tables showing value, quantity, and quantity indexes for agricultural commodities exported and imported for the latest available month and for the cumulative period from July 1. The annual issues appear in two separate series, one giving commodity totals and the other trade by countries. Another annual report deals with fiscal year United States imports of fruits and vegetables under quarantine.

Distribution.—Free in the United States. Apply to Division of Information, Management Operations Staff, Agricultural Economics, U.S. Department of Agriculture, Washington 25, D.C.

FOREIGN AGRICULTURE

Content.—Issued monthly; 24 pages, illustrated. Presents the “news behind the news” of world agricultural trade, especially as it affects U.S. agriculture, and reports on world competition with, and world demand for, the products of United States agriculture, and general aspects of world agricultural developments, including scientific progress, government policy, and commodity situations.

Free distribution is limited to cooperators. Apply to Foreign Agricultural Service, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Single copies, 20¢ each; domestic subscription, \$2.00 a year, Foreign subscription, \$2.75 a year. When remitting for a subscription to be sent to a foreign country, do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

FOREIGN CROPS AND MARKETS

Content.—Published weekly, with monthly supplemental issues; averages about 35 pages. Designed to assist the foreign marketing of United States farm products by keeping the nation's agricultural interests informed of current crop and livestock developments abroad, foreign trends in production, prices, supplies, and consumption of farm products and other factors affecting world agricultural trade. World sum-

maries of crop and livestock production and trade are released in the monthly supplement as information becomes available.

Distribution.—Free in the United States. Apply to Foreign Agricultural Service, U.S. Department of Agriculture, Washington 25, D.C.

MONTHLY LIST OF PUBLICATIONS AND MOTION PICTURES

Content.—This list is issued each month. It gives the title of each printed publication issued by the Department during the preceding month. It also lists and describes any motion picture released.

Distribution is free. This list will be sent to anyone who requests it. Apply to the Office of Information, U.S. Department of Agriculture, Washington 25, D.C.

NEWS FOR FARMER COOPERATIVES

Content.—News for Farmer Cooperatives contains educational and informative articles by research workers and other leaders in farmer cooperatives. It relates to such problems as management, organization, financing, policies, merchandising, sales, costs, competition, and membership of farmer cooperatives. It is issued monthly and is illustrated.

Free distribution is limited to farmer cooperatives, public institutions, and persons primarily concerned with cooperatives among farmers. Apply to the Farmer Cooperative Service, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Single copies, 20¢ each; domestic subscription, \$2.00 a year. Foreign subscription, \$2.75 a year. When remitting for a subscription to be sent to a foreign country do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

NOTICES OF JUDGMENT

Content.—Notices of judgment give the essential facts of seizure and prosecution of cases brought under the Federal Insecticide, Fungicide, and Rodenticide Act approved June 25, 1947. Notices are not issued at specific intervals but are published in groups after the termination of the cases in court.

Distribution is free. Persons wishing to receive notices of judgment in regard to insecticides, fungicides, rodenticides, herbicides, and devices may have their names placed on the mailing list by applying to the Plant Pest Control Division, Agricultural Research Service, U.S. Department of Agriculture, Washington 25, D.C.

RURAL LINES

Content.—Rural Lines is a monthly review of REA-financed rural electrification and rural telephone activity in the United States. The periodical contains articles, discussions, and news items and pictures on the efficient use of electrical equipment on the farm and in the farm home; on the use of electricity in rural industry, hospitals and other community enterprises; on new developments in the fields of rural electrification and rural telephony; and on management activities of rural electric and rural telephone systems financed by REA.

Free distribution is made to the staff of the Department, to Federal and State agencies active in the rural electrification and telephone programs; to libraries, educational institutions, the press, and managers and directors of REA-financed organizations. Apply to Rural Electrification Administration, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Single copies, 15¢ each; domestic subscription, \$1.50 a year. Foreign subscription, \$2.00 a year. When remitting for a subscription to be sent to a foreign country do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

SOIL CONSERVATION

Content.—This is a monthly, illustrated periodical concerned with soil and water conservation. Soil Conservation publishes a wide variety of technical, popular and research articles. It features "farmer and community experience" stories and tells of plants and practices important to soil and water conservation and flood prevention. Special attention is given to the activities of soil conservation districts, and to the work of the Soil Conservation Service.

Free distribution is limited to a very small number of workers and official co-operators of the Department engaged in soil conservation activities, to libraries, agricultural colleges, experiment stations, and similar institutions. Apply to the Soil Conservation Service, U.S. Department of Agriculture, Washington 25, D.C.

Sales distribution.—Single copies, 15¢ each; domestic subscription, \$1.50 a year. Foreign subscription, \$2.25 a year. When remitting for a subscription to be sent to a foreign country do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

STATISTICAL SUMMARY

Content.—Statistical Summary, prepared for ready-reference desk use, is a monthly 4-page condensation from regular crop and livestock reports of the Statistical Reporting Service and from other statistical reports. It covers production estimates or prospects for various crops, farmers' average prices compared with effective parity prices, farm-retail price spreads, farmers' cash receipts by States, and various other statistical information.

Free distribution.—For sample copies or addition to the mailing list, write to Division of Information, Management Operations Staff, Agricultural Economics, U.S. Department of Agriculture, Washington 25, D.C.

SUGAR REPORTS

Content.—This monthly publication contains the latest available sugar statistics and data on the domestic movement, supply and price situation, analyses of domestic and world market situations and of current problems of interest to domestic producers and consumers.

Free distribution.—For sample copies or addition to the mailing list, write to the Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington 25, D.C.

WORKING REFERENCE OF LIVESTOCK REGULATORY ESTABLISHMENTS, STATIONS AND OFFICIALS

Content.—This reference is an essential working tool in administering the Federal Meat Inspection Program and the programs designed to control and eradicate animal diseases. It provides Livestock Regulatory Officials information concerning facilities available in the various Branches and it makes available a current reference to meat-packers operating under inspection and identifies establishments eligible to receive sealed cars of unmarked or restricted products.

No free distribution.

Sales distribution.—Single copies, 35¢ each; domestic subscription, \$3.00 a year. Foreign subscription, \$4.00 a year. When remitting for a subscription to be sent to a foreign country do not include postage. Send request and remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

SECTION III

INDEX TO TITLES

This index is a ready reference to titles of the publications listed. It is not a reference to their contents.

Figures following entries refer to page numbers: "a" following the number indicates left-hand column on the page indicated; "b" following the number indicates right-hand column.

HOW TO OBTAIN VISUAL AIDS

MOTION PICTURES

The motion pictures produced by the Motion Picture Service, Office of Information, Department of Agriculture, are informational and instructional. They are designed to aid in disseminating information on agricultural products, their production, distribution, and utilization. They demonstrate improved methods in agriculture and home economics, stress the need for conservation of soil, forests, and other resources, explain the production credit system, forestry, land use, marketing, rural electrification, and kindred subjects, and help to increase the effectiveness of cooperative extension work.

The Department has available approximately 300 16-mm. sound films; many are in color. Approximately 225 of these films have been released for television use. Prints of Department films may be borrowed from 70 cooperating film libraries in the 50 States, the District of Columbia, and the Territory of Puerto Rico, or may be purchased outright at nominal cost. A listing of the films, with short descriptions, names and addresses of cooperating film libraries, and details regarding their loan and purchase is available from the Motion Picture Service, Office of Information, U.S. Department of Agriculture, Washington 25, D.C.

FILMSTRIPS AND SLIDE SERIES

Filmstrips and slide series cover a variety of agricultural and home economics subjects and are accompanied by supplementary notes for lecture use. A price list of available filmstrips and slide series, which are for sale only, may be obtained from the Office of Information, U.S. Department of Agriculture, Washington 25, D.C.

PHOTOGRAPHS

Reproductions of photographs which have been obtained in connection with authorized work may be purchased from the Department. Prices for prints and enlargements will be quoted upon request. However, no reproductions will be made for applicants, other than Federal agencies, until payment for them has been received. A minimum charge of \$1.00 is made on all orders.

A price list of photographs of drawings of crop seeds and seedlings may be obtained from the Photography Division, Office of Information, U.S. Department of Agriculture, Washington 25, D.C.

The Department will not furnish reproductions when it is believed that they may be used to show, by implication or otherwise, that the Department endorses any commercial product.

When ordering photographs of illustrations appearing in Department publications the negative number, if shown, title, and date of issuance of each publication should be given. Requests should be addressed to the Photography Division, Office of Information, U.S. Department of Agriculture, Washington 25, D.C.
